COMMISSION WISHES TO INVITE INTERESTED
PERSONS, RELEVANT STAKEHOLDERS,
AGENCIES AND THE MEDIA FOR THE LAUNCH
OF THE GEOBOOKS.**

The Geobook is an electronic map of all provincial data processed by the UPNG Remote Sensing Centre. It contains an updated data of education, health, agriculture and transport and infrastructure facilities on the ground. It is a customized tool designed to meet NEFC's requirements to update current cost of services study. This user-friendly tool has various layers of datasets overlaid in a satellite-imagery and 3dimensions backdrops enabling easier access to provincial data at any one time.
